

## RDS Full Kit - Rapid Desealing System

### Pneumatic and manual sealant removal tools

**Application :** Quick de-sealing jobs of the inside of a tank

**Performing :** Effortless operation  
Large choice of tips  
Preserves surface primer integrity

**Cost-effective :** Interchangeable tips (sharpenable)  
Fuel resistant  
Quick set up  
Standard air shop

**Safe :** Can be used inside tanks (hazardous area)  
No generation of sealant dust

*Tips are designed in an unique material combining robustness and efficiency while preserving surface integrity. Easy to use, the RDS Full Kit, with its large choice of tips can be used in difficult areas, significantly reducing de-sealing time; which is a very difficult task especially inside fuel tanks.*

Combining the pneumatic tool whose vibration frequency provides maximum efficiency in sealant removal, and manual scrapers allowing to operate into difficult areas, the RDS Full Kit is the ideal tool for all de-sealing tasks while preserving surface primer integrity.
